

BREWSKI BAR

PROJECT TYPE	BUILDING EXTENSION
SITE + LOCATION	Caxton St, Petrie Terrace
PROJECT STATUS	Tender
SERVICES	Town Planning Architecture Interior Design

The Brewski Bar extension is a small addition to an existing bar located on Caxton street. Faced with many challenges the project overcame complexities such as the character overlay and steeply sloping site.

The design cleverly takes advantage of the site and optimise's the overall area of the extension, situated to allow maximum accessibility to the existing built fabric connecting on two of the three levels.

This extension is sympathetic to the existing built fabric offering cleverly crafted spaces for the patrons of Brewski Bar. The degustation courtyard will become a feature of the bar offering an outdoor entertaining area to take in all the benefits of a Brisbane summer night.
